Adult Review

Some of The Tongue's Tastebuds have been emailing us and asking about Fisting sites. There are plenty of sites out there that claim to offer quality fisting content but very few actually do. After a long search, TeachMeFisting is the absolute best site on the net for serious fist-fucking fans!

The site does not use any tricks or fake camera work. It doesn't frustrate you by keeping the thumb out of these sexy bitches. Every update includes a very pretty model taking the whole hand or the thick end of a baseball bat or a variety of other tools deep into their cunts. These are girls who enjoy the art of fisting and they rarely stop smiling as their holes get used to the limit of their capacity!

The interface of the site is very simple to use and things are clearly marked so even an internet novice will have no trouble finding their way around.

TeachMeFisting already contains an archive of 127 complete updates. Each update includes video and pictures that bring your fisting fantasies to life.

The site updates weekly but instead of waiting 7 days for new smut, the site gives you a new clip of the action each day of the week with the finale and the complete scene one click download becoming available each Tuesday. That's 127 complete scenes and a new update segment each day after you become a member.

The videos can be streamed online or downloaded to your hard drive. Downloads come in either high quality 512x384 or medium quality 400x300. Scenes are usually 30-45 minutes long.

Don't worry about the stats and numbers. What you really need to know is that the fisting on this website is fucking hot. There aren't many sites out there that will let you download video of a beautiful woman fucking a regulation size wood baseball bat. TeachMeFisting does!

Pictures from this site are crystal clear 1280x856 resolution and are suitable for printing out, collecting on your hard drive or freaking out your friends by updating your computer screen wallpaper with them daily! Every update comes with 100-150 pictures for each. You can also download entire picture sets or one page of pictures at a time as .zip files. That means lightning quick downloads.

TeachMeFisting offers a 1 day trial subscription for \$1.95 or a 30 day monthly membership for \$29.95. Best of all, if you sign-up and remain a member for a couple months they offer a "loyalty bonus." They actually lower your monthly rate by five bucks a month and let you add two new sites from their network to your portfolio every month that you remain a member.

So, if you stay a member for a few months you quickly get access to 10 or 12 other websites for \$24.95 a month instead of the one site you get for \$29.95 to start off with. That's an incredible amount of new content added to the mix each and every month that you remain a member and a great reason to stop hopping from one site to the next.
