Introduction

Video Sexperts is a massive website that is based on one simple truth. Nobody knows more about porn than you do! If you are a real Sexpert who has seen it all, done it all... and is finally ready to speak up and tell it like it is; then your sexual expertise is needed and this is the one site that will make the most use of it!

Adult Review

There are a lot of one-way sites out there these days. Sites aimed at sending their movies to you and telling you what they think makes for good porn. Video Sexperts is designed from top to bottom as a two-way website focused on putting porn up for your review and giving you all the tools you need to tell the world what you think of it!

Every one of their 2,000+ DVDs is available for viewing online as a Flash video file or for download in a number of formats. They took care to make sure dialup friendly and broadband enhanced DVD quality files are available for each updated. That way every Sexpert can get a good look at the action before offering up an opinion.

Watching these movies is a breeze with a very well designed interface and all the usual tools you would expect from a gigantic DVD site. However, where most sites think their work is done... is where Video Sexperts really kicks things into high-gear.

With a few easy clicks you can rate any movie, scene or pornstar. You can also include your own detailed review of anything you watched and it becomes a permanent part of the site! Dislike the way an actress sucked dick because she lacked emotion... give her a bad review! Loved seeing a threeway were the director and the performers really brought their "A" game... post your official review of their efforts!

These are not just write it and forget it reviews. They are important in two important ways:

First, Video Sexperts evolves based on member feedback. Actresses, studios, directors, content that gets high scores is brought back in future updates. Skanky whores and lackluster studios with bad member reviews are not asked to contribute any more of their lame-ass work!

Second, and perhaps more importantly, when you write a review or post a score it goes into your personal portfolio of comments. Sexpert portfolios can be viewed by other members as well. In that way, if you find another Sexpert who knows what they are talking about in one scene... you can see which other scenes they have also given high ratings. If your own portfolio gets attention from other members you may even earn yourself a FREE month as a member!

The site even takes care of perverts-on-the-go! With each movie available as Ipod or PSP formatted downloads, you'll be able to do 'research' no matter where you are so that you can write up your reviews whenever you get the chance to log back into the site!

Video Sexperts may not be a perfect system but it'd the best user-feedback based pornsite in the world today. Check out the tour for yourself. One of the best aspects of the whole site is that the tour is the members area. You can see exactly what you get when you visit, you just can't watch or download the content (or post your own Sexpert reviews) until you signup.

As an additional bonus, the site normally costs \$29.95 per month if you go to it directly but as a member of The Tongue if you click the banner or Free Preview button on this page you will be able to become a member for only \$19.95 per month! That ten dollar per month savings is a special deal for our members!
